On Tuesday the 22nd of July the Kitchen Garden group and the Community Project group from Stronger Smarter went to help the Mildura Council plant trees. The planting site was near Ambleside Crescent, in an area set aside for water run off. The students planted over 25 trees that will not only help the run off area with the clearing away of water, but will also make the area a nice spot for community members to spend time. Thankyou to the students who took part and thankyou to the Mildura Rural City Council for the opportunity.

From the Principal

We are already up to week three of this term and many teaching and learning opportunities are well under way:
As part of the Grades 5 and 6 Money Maths program, a mega market is going to be held on Friday 1st August. All grades 5 and 6 students have been working hard to be ready for this day. Good luck Grade 5 and 6 students.

The Grade 3/4 Camp is being finalised and students will be heading off later this term.

In three weeks’ time Mildura Primary School will be celebrating Book Week. More information will be sent home shortly.

It was great to see everyone ready for school photos last week. Thank you to everyone who helped by making sure their children were in full uniform and their hair neatly brushed. Photo Day is always a very busy day but well worth it when the photos come back and we get to see all the smiles on faces.

Another thank you goes to all the students who were able to share their learning with family members on Wednesday. It was wonderful to walk around the school and see how proud everyone was as students shared their work and talked about how this year has been going. Well done everybody.

Tree Planting

David Midgley
Assistant Principal

It’s cool to be at school...
Sponsored by MPS Breakfast Program

We used the 6 Thinking Hats to discuss caterpillars

Black hat - they are itchy and eat vegetable plants

Red hat - I don't like them because they are disgusting!

White hat - they turn into butterflies

Green hat - we could have caterpillar races!

Yellow hat - they tickle when you hold them
There is good news and bad news about head lice...
Do you want the good news or the bad news?

The **good news** is:

Head lice are easy to kill. Hot water above 60 degrees will kill head lice in 10 seconds.

(THIS IS TOO HOT FOR A SHOWER OR BATH)

Concentrate on the head – there is no evidence that you need to make a special effort to clean the house

There are choices about treatment – not all of them involve chemicals

There is new and accurate information available about head lice from the office or look at www.health.vic.gov.au/headlice

The **bad news** is head lice have been around for 10,000 years and cannot be eradicated. We have had cases reported to the school and ask you to please check your family and treat any of the family who have head lice.
